### 1. 教學目標

- This course aims to help students get access to English-speaking environments and the cultures underlying them through watching a series of Oscar-winning movies. - Students are oriented to reiterate the storyline and discuss the thoughts behind the films using effective communicative language skills in the class. - The content of the films comprises a multitude of themes, e.g., youth's love, growth, faith, and interrelationship, which motivate students to start deeper thoughts and reflections on their life experiences. - Students also have the opportunities of introducing their favorite movies in the individual/group presentations or the course forums on the internet.
